WE INVENT SMARTER WAYS TO FIX THE WORLD

About AB&S - AVVITO S.r.l.

AB&S-AVVITO S.r.l. deals with the production and supply of **standard and special screws, studs, bolts, nuts and fasteners**, made according to Customers' specifications. All our products can be manufactured by molding or turning, through the use of the following materials: steel, carbon steel, stainless steel and super alloys, aimed to provide the following sectors: *oil & gas, petrochemical, drilling, energy, off-shore and general industry.*

Since 1969 we deploy minds and machines to enhance customer productivity, while **minimizing costs and delay risks.**

In fact, we can give a full optional service specifically tailor-made according to manufacturing industry's needs, retaining our single-trusted-partner status.

Our costs reduction guarantees both **product excellence** and the **highest quality level.**

We supply the industry's most comprehensive range of bolting material manufactured with different special materials, among which the most commonly used are **alloyed steels and stainless steels** such as B7, B7M, L7, L7M, B8, B8M, B8R, B8T, *Nitronic[®], Nickelvac[®], Hastelloy[®], Monel[®], Inconel[®]*, according to ASTM, ASME, UNI EN ISO, NACE standards. All our products can be **heat treated or coated** (i.e. *Geomet[®], Xylan[®], kolsterizzazione[®], Niploy[®]/Cheniflon[®]*)

Our main Customers sectors are the following ones:

- Valves and Actuators manufacturers
- Power & Energy industries
- Heat Exchanger and Reactors manufacturers
- Pressure Vessels manufacturers
- Drilling & Piping Companies
- Providers of technology for reservoir characterization, drilling, production, and processing to the oil and gas industry

As **great Customers require a great support**, please do not hesitate to visit our website www.absavvito.com to find out all our news and services.
